Steve,

Ellen Riley is the point of contact for AST issues in MN. She can be reached at 312-886-9497 and her email is [riley.ellen@Epa.gov](mailto:riley.ellen@Epa.gov).

Sorry for the delay. Give me a call if you have any additional questions.

-Mark

**Subject:** RE: Tank Information

Mark

The number for Barbra is disconnected

Thanks

Steve

**Subject:** Tank Information

Steve,

For more information regarding installing and above ground tank you can contact Barbara Carr. She can be reached at (312) 886-7187. You may also want to talk to Scott Hansen from the Mille Lacs Band DNR. He can be reached at (320) 532-7445.

As far as the tank removal, if you are using a Minnesota Certified contractor you are on the right track. You will need to assess the site to ensure that the tank has not leaked. At a minimum we would like a site diagram and the locations of where the samples were taken and the results. You will also need to send us a copy notification form indicating that the tanks were removed, a copy of the State's notification will be sufficient. If possible we would like to have Scott observe the removal.

I will have to get back if we need more information. If you have any additional questions please feel free to contact me.

Thanks.
